

Integrity

Rahal Letterman Racing Headquarters and Raceshop

“I have used Renier Construction for several projects, from a 45,000 square foot automobile dealership to a 6,000 square foot barn for my automobile collection. And in all cases I have found Renier to care about the completion of each project within the agreed upon time frame and on budget. Even more so, I have found them to genuinely care about the job as if it was their own. For me, they gave me peace of mind.”
