

Zach Germain
General Manager
Germain Infiniti of Easton

“ Renier’s manufacturer relationships helped us get things done right.”

It is nice for us that Renier is seasoned in the automotive arena. Their contacts and relationships at the manufacturer level are especially important. It can be a little tricky if you misstep, and they helped us to stay out of trouble. Everything is compliant and as it should be.

During construction, Renier was able to use their creativity and were accommodating on a number of details. In our building there is no wasted space, it is very inviting, and they were able to build our store at, or below budget.
